

## **INTRODUCTION OF COMMUNITY COLLEGE IN HRH THE**

### **POWIET**

In 2013-14, the All India Council for Technical Education (AICTE) had introduced National Vocational Education Qualification Framework (NVEQF) to educate the school dropouts by providing professional training on different trades through the technical Institutions. The scheme was introduced as Community College in different Institutions. NVEQF is now-a-days called as National Skill Quality Framework (NSQF). Our college, HRH The Prince of Wales Institute of Engineering and Technology was also selected for implementation of this Community College scheme and accordingly they provided fund in Nov, 2013. Already two batches have completed the professional training from our Community College during 2014-15 and 2015-16 and have absorbed in different private organization. Present Principal, Dr. Hitesh Tahbildar, after joining in June, 2016, has taken initiative for proper utilization of the Community College fund and also to run two courses namely Tea Factory Technician and Auto Electrical and Electronics in two levels.

There are four Governing bodies to look after the different activities of Community College.

- **Nodal agency** – The Director of Technical Education acts as the Nodal Officer between AICTE and The Community College of different polytechnics of Assam. The Director of Technical Education calls meeting as and when required and discuss different issues related to Community College.
- **Board of Management** – This board comprises of 8 members and the chairman of the board is The Director of Technical Education. It looks after

the different activities undertaken under Community College and its implementation. The board also looks after the purchase of different machineries under the scheme.

- **Board of studies** – This board comprises of seven members and the chairman of the board is the Principal of the Institute who acts as the Chief Co-ordinator of Community College. This board looks after the different student related problems, curriculum, classes etc.
- **State Council for Technical Education** – The SCTE conducts the examination of Community College and accordingly they issue the pass certificate.

**Complete Auto Electrical Wiring system developed by student of Community College with the supervision of SKP, Anamika Motor, Maruti dealer of Jorhat.**
